2010-11
Envision

From the Desk of COO

Dear Customers, Partners and Colleagues,

On the completion of yet another successful year of New Horizon, I would like to thank you all for believing in New Horizon to help you in achieving your respective cores. This makes me even more excited that the coming days will be very potentially positive for us.

In this highly competitive environment and continuous recession, some of the companies have been cutting their domains but proudly saying New Horizon has undergone a phenomenal expansion, by increasing the number of alliances with the best technology companies to 20 and continual increase in our workforce to facilitate the stakeholders.

This year New Horizon has not only completed major projects in Pakistan but has penetrated in Afghanistan, Tajikistan and UAE market too. This opportunity also makes me to announce that by the end of this year New Horizon will have a presence in 7 countries. Talking about the international business, New Horizon has captured the telecommunication sector in Afghanistan and has started off in Tajikistan and UAE as well.

New Horizon has completed some major projects locally as well. New Horizon provided virtualization solutions to the renowned organization such as Dalda Foods, Aman Foundation, Tullow Oil, 1 Link Guarantee, and many more whereas New Horizon has also setup a DR site for Dawlance. New Horizon also established a complete LAN and Voice Infrastructure Solution for RMI and deployed office printing solution at HBL.

In future our stakeholders will find New Horizon as a fully transitioned organization and this enable us to provide our services in a much healthier custom. I pray to Almighty for a yet another successful year of New Horizon in 2011-12.

Our commitment to our stakeholders is backed by teamwork and strong leadership.

Thank You.

Raheem Eqbal
Chief Operating Officer

1 Link acquires Microsoft products for their Datacenter

1 Link (Guarantee) Limited acquires Microsoft products for their Datacenter from New Horizon. The Microsoft products include Windows Server 2008 DataCenter edition and SQL Server 2008 Enterprise Edition.

With Windows Server 2008 R2 Datacenter, 1Link can optimize for large-scale virtualization on small to large server systems and for workloads that require the highest levels of scalability, reliability, and availability to support large, mission-critical applications.

SQL Server 2008 Enterprise will provide 1 Link with a trusted, productive, and intelligent data platform that enables you to run your most demanding mission critical applications, reduce time and cost of development and management of applications, and deliver actionable insight to your entire organization. SQL Server 2008 Enterprise provides the highest levels of security, reliability, and scalability.

Previously, 1 Link virtualized its IT environment by consolidating the physical servers through VMware technology. As a VMware Enterprise Partner, New Horizon provided and deployed VMware technology at 1 Link.

Engro Foods enhances technology infrastructure

Engro Foods enhances technology infrastructure by acquiring HP and Microsoft products from New Horizon. These products include HP 4420S Notebooks bundled with Microsoft Windows 7 operating system. In addition, Engro Foods has also procured Microsoft Office 2010 as a productivity tool.

Keeping in view to the enrichment in product line, Engro Foods has recently increased its work force for which it required to enhance its technology infrastructure.

Engro Foods Limited was officially launched as a fully owned subsidiary of Engro in 2004. Using dairy as a stepping stone to enter into the food business, the Company has from there on established itself as a major player in the food industry.

OA Systems renews Microsoft Open Value Agreement

OA Systems renews Microsoft Open Value Agreement with New Horizon. The products included in the agreement are licenses for SQL 2010 Standard edition, Office 2010 Professional Plus, Windows Server 2010 Standard edition, Visual Studio Professional and Premium edition.

OA Systems (Pvt) Limited is a technology solutions company for the healthcare industry. The company develops dynamic and innovative products that provide benefits to the multitude of partnerships that constitute patient care today, benefiting healthcare as a whole.

Getz Pharma gets virtualized

New Horizon provides server consolidation solution powered by VMware technology to Getz Pharma. The solution includes VMware Enterprise Plus which features VSphere Enterprise plus and VCenter Server Standard.

Getz Pharma was facing the challenge of Server Consolidation solution with easy management, deployment and up-gradation, power reduction and cooling costs and delivery of scalability to support business expansion. New Horizon being an Enterprise Partner of VMware provided the pharmaceutical company with the best-fit solution through VMware which enables consolidation of physical hardware to eradicate server sprawl and lower power and cooling costs while offering scalability, performance and high availability.

Lufthansa UAE to simplify Print Assets Management

Deutsche Lufthansa AG (UAE) simplifies the print assets by deploying a solution provided by NHC Global - the UAE Branch of New Horizon. The solution provided by NHC Global will improve productivity in Lufthansa's office by placing the most suitable, energy-efficient devices in the right locations based on the corporation's needs. Secondly, NHC Global will ensure exceptional print quality and a smooth running printing fleet with on-demand delivery of original print supplies—ink cartridges, toner cartridges and maintenance.

Keeping its "Go Green" vision, NHC Global is providing HP Printers which are embedded with green technology that are less energy consuming and release less carbon but provided more productivity.

With this solution, Lufthansa will have an enhanced user satisfaction through consistent print quality and from having suitable, energy-efficient devices in the right places, an improved printer utilization through increased uptime and minimized disruptions, an improved staff productivity and asset optimization by freeing their IT staff from managing devices, and a minimized administrative overheads from ordering and stocking supplies.

Deutsche Lufthansa AG is world's fourth-largest airline in terms of overall passengers carried, operating services to 18 domestic destinations and 203 international destinations in 78 countries across Africa, Americas, Asia and Europe.

TPL Trakker gets virtualized

TPL Trakker gets virtualized through VMware technology provided by New Horizon. In order to deploy a virtualized technology, TPL Trakker acquired HP ProLiant DL-585 G7 Servers along with HP E6600 Switch Series and licenses for VMware vSphere Enterprise Plus. Through virtualizing the IT infrastructure, TPL Trakker will be able to:

- Reduce hardware and operating costs

- Reduce the time it takes to provision new servers by up to 70%

- Decrease downtime and improve reliability with business continuity and built-in data disaster recovery

- Deliver IT services on-demand now and in the future, independent of hardware, OS, application or infrastructure providers

Operational since 1999, TPL Trakker's Limited is Pakistan's first multi-national company in Vehicle and Fleet Management Services operating across Pakistan and the Middle East.

New Horizon provides Disaster Recovery Solution to Tameer Micro Finance Bank

New Horizon provided a distinctive Disaster Recovery Solution to Tameer Micro Finance Bank. New Horizon fulfilled the requirement of Tameer Micro Finance Bank of deploying a DR Site at Islamabad and Lahore to safeguard the critical data of the organization.

Tameer Micro Finance Bank was engaged with New Horizon for planning their DR Site and lining out a plan that ensures a minimum outage in case of calamity. In this reference, New Horizon proposed a solution to Tameer Micro Finance Bank which features a robust and cost-effective DR Site. This solution includes virtualization technology, whereas the data is replicated through Veeam.

Virtualization offers a unique value proposition, with the opportunity to reduce costs while also increasing service levels. Nowhere is this value proposition more apparent than with data protection. Veeam provides the most comprehensive protection for the virtual environment, offering backup and replication through one solution. This gives flexibility to meet different recovery objectives (RTOs and RPOs) for different virtual machines (VM). A VM on-site can be replicated for high availability, off-site for disaster recovery, or back up using less expensive hardware and techniques. Organizations save on software licenses—and realize additional benefits from virtualization. To ease data transfer to and from off-site locations, Veeam uses WAN bandwidth efficiently and lets replication over slow WAN links.

This solution delivers comprehensive resource consumption and workload data for hosts, clusters and data stores, with visibility all the way down to the individual VMs and applications running inside it. The solution has the capabilities to speed up analysis and troubleshooting, and will help Tameer Microfinance Bank to determine potential resource bottlenecks for virtual server workloads and eventually the future of IT roadmap of Tameer Micro Finance Bank will be aligned with the latest technology.

Tameer is a Microfinance bank managed by a group of highly experienced bankers committed to go where no (commercial) bank has gone before. Tameer serves low-income, salaried, self-employed and micro entrepreneurs men & women with a range of financial products designed to allow them to grow their businesses and produce significant economic multiplier effects throughout local economies.

H. K. Shah to strengthen customer relationship with Microsoft CRM

H.K. Shah strengthens customer relationship with Microsoft Customer Relationship Management module. H.K. Shah chose New Horizon to provide its services for deploying CRM. New Horizon being an authorized partner of Microsoft for providing deployment services of CRM.

With seamless Outlook integration and the familiar, fluent Microsoft Office style interface, MS Dynamics CRM creates a personalized user experience to help everyone increase business productivity.

As a fully integrated customer relationship management system, MS Dynamics CRM 2011 is designed to fit each unique business requirement and has the flexibility and scalability to adapt as your people, priorities and infrastructures change.

- Seamless Outlook Integration
- Intuitive interface that eases adoption
- Role based access
- Automates business rules & workflows
- Guided process dialogs
- Advanced personalization
- Flexibility of deployment
- Real-time dashboards
- Connects with other technologies
- Leverages Microsoft technologies
- Cloud development

H.K. Shah Enterprise (Pvt.) Ltd was founded in 1984 and over past years became a leading IT and Telecommunication equipment distributing company in Pakistan & UAE. It focuses totally on working effectively providing and dealing with information management for many organizations as well as being one of a few successful companies to provide information management solutions to the private public sector.

Automating Capacity Management Process using Microsoft SharePoint Server 2010 for Etisalat Afghanistan

Capacity Management is a key corporate process that holistically manages all network related activities in regard to providing the right capacity for services and components based or arguable costs and time.

Etisalat Afghanistan is deploying Microsoft SharePoint 2010 to implement end-to-end process mapped to e-Tom framework, customized according Etisalat Afghanistan (EA) business needs. This implementation will help EA reduce email clutter and centrally manage new capacity or increasing existing network capacity using SharePoint 2010 collaboration tools and Workflow Framework. SharePoint 2010 will also be used to implement Intranet Portal for EA which will increase their collaboration within organization and provide a central repository for their documents and knowledge base. EA chose New Horizon for the deployment of Microsoft SharePoint 2010 for having the expertise in Microsoft products & services.

Etisalat Afghanistan is a newly established GSM operator in Afghanistan. Etisalat Afghanistan is 100% owned by Etisalat U.A.E. (the parent company).

New Horizon Expands Globally

New Horizon steps in UAE

New Horizon has recently stepped in UAE as a part of global expansion. After Pakistan and Afghanistan, New Horizon has opened its branch in Dubai, UAE. New Horizon has completed many successful projects both in Pakistan and Afghanistan which has made the organization competitive in the other regions as the Middle East.

Having a portfolio of 25+ products and services and an alliance with major technology giants, New Horizon has become one of the leading end-to-end IT solution provider in Pakistan and is aiming to enter the Dubai market with the same approach.

The vision of the New Horizon Management of going global and to be recognized as a Pakistani multi-national can be now seen practically. Dubai has emerged as a global city and a business hub for the past few decades. Although Dubai's economy was built on the oil industry, currently the emirate's model of business, similar to that of Western countries, drives its economy, with the effect that its main revenues are now from tourism, real estate, and financial services.

New Horizon now in Tajikistan

President Federation of Pakistan Chamber of Commerce and Industry (FPCCI) Senator Haji Ghulam Ali lead a delegation of one hundred prominent businessmen and investors to Tajikistan. The visit is aimed at exploring business opportunities in Tajikistan, to inform businessmen of the republic about openings in Pakistan and enhance one-to-one contact and strengthen ties.

The delegation also included the management of New Horizon. Taking the opportunity of this visit, New Horizon penetrated into the Tajikistan's local market and signed a Memorandum of Understanding with Royal Corporation (a local Tajik company). According to the MoU Royal Corporation is assigned for business development in Tajikistan whereas New Horizon will provide products and services. New Horizon is proud to announce Tajikistan as the third international venue to start its operations.

Tajikistan is a small republic in Central Asia having an area of 143,100 sq. km and a population of around 6.1 million. The capital of Tajikistan is Dushanbe.

New Horizon is operative internationally with the title "NHC Global"

Events & Roadshows

New Horizon sponsors e-Banking 2011

New Horizon sponsors 9 th e-Banking Conference & Exhibition , held recently at Pearl Continental Hotel, Karachi. The event brought together a large number of professionals from the financial sector and highlighted the latest technology trends, which would benefit their daily banking operations, improve productivity and increase cost effectiveness. The event was organized by Total Communication in collaboration with various other industry entities.

At the event, Kumail Morawala, Lead Solution Architect, New Horizon, spoke on general Cloud Solutions

and how it can help organizations cut their IT assets and increase productivity. In his presentation, Kumail addressed about the types of Cloud Computing i.e. Private, Public and Hybrid. He further elaborated about the components required operating the solution that are Server Virtualization which is now commonly implemented at various organizations but Kumail emphasized on the next step which is Desktop Virtualization and Application Virtualization.

New Horizon also fabricated a model branch of Meezan Bank in which New Horizon showcased a real image of how can the cloud solution integrate with core banking applications.

Cloud Solutions is latest inclusion in New Horizon's solution portfolio. It is the most in discussion technology that helps the organizations reduce the cost of IT and become agile in nature.

New Horizon participates in LUMHS Roadshow

New Horizon participated in a two day promotional campaign organized at Liaquat University of Medical Health & Sciences. New Horizon showcased different models of HP Notebooks to the management and the faculty members of the university to choose from.

New Horizon sponsors NED Tech Elite

New Horizon sponsors the 4th edition of Tech Elite. The event gathered a large number of IT industry professionals as well as IT students from a number of universities.

Tech Elite is an event organized by the Computer Information System Department of NED University in which 30 universities with more

than 350 students participate. This event consists of seminars where IT professionals from the industry educate the students over various new and existing technologies, and competitions where students from various universities present their expertise in their respective fields and then a jury judge their projects fairly on the basis of potential and aptitude. Speed Programming, Networks Management, Software Project and Software Modeling & Design were the areas of which the competitions were held in this edition of Tech Elite.

New Horizon is always ready to support the events of such kind and provides the new talent an opportunity to have real world experience. New Horizon also congratulates the organizers of NED Tech Elite'10 on taking an initiative and its success.

LUMHS conducted this activity by inviting all technology vendors to showcase their products letting the management and the faculty members decide which product they prefer.

The campaign was held to boost familiarity and educate the faculty members and the management of the university with various brands' wide range of products available in Pakistan. Through this promotional initiative, New Horizon not only offered HP product but also explained about the other services that are offered at New Horizon. The campaign received highly favorable response by the management and the faculty.

Sushi On Cloud

New Horizon organizes a session for the Chief Information Officers (CIOs) from the Financial Sector. The event was organized at renowned Japanese restaurant Kamameshi. 25 CIOs and counter parts from HP and Microsoft were invited to attend the session.

The session started off with a brief presentation about "Cloud Computing" where speakers from New Horizon, Microsoft and HP provided the audience an overview on Cloud Computing and how it can benefit the financial services organizations in reducing their IT cost and become agile in nature.

The speakers from New Horizon - Syed Adil (Head of Solution Design Center) & Kumail Morawala (Lead Solution Architect also briefed on the types of Cloud Computing i.e. Private Cloud, Public Cloud and Hybrid Cloud and the components required operating the solution.

Microsoft Pakistan organizes the Biggest IT Event of the Year

Microsoft Pakistan strikes with "Open Door": the biggest IT event of the year on Thursday November 4, at Sheraton Hotel, Karachi. The 2-day event was attended by over 700 IT professionals and experts from all over the country.

The event was an interactive and inspirational experience for hundreds of attendees. Microsoft, along with its business partners took the opportunity to showcase the latest innovations in the industry ranging from mobile solutions and business applications like Microsoft Communications Server, Microsoft Dynamics CRM / ERP, Microsoft SharePoint 2010, and Microsoft Virtualization Solutions. Microsoft and its partners also organized a series of live demos and presentations for experts and early adopters highlighting the company's strategy, products and solutions for business and consumers.

New Horizon also participated in the event as the official Microsoft Partner for Virtualization Solutions. New Horizon was provided with a booth which grabbed the most of the audience and educated them on the virtualization solutions and on the solutions emerged from the alliance of Microsoft and Citrix. Speakers from New Horizon also spoke on the solutions which were showcased on the booth.

By using the GPU's parallel processing capabilities, it delivers massive performance for scientists and researchers needing the power of a supercomputer, but at a fraction of its cost and power consumption.

Highlights
2010-11

HP Office Printing Solution at HBL

New Horizon has successfully deployed HP Office Printing Solution at HBL Centralized Trade Processing (CTP) Global Operations. Office Printing Solution is about simplifying management of print assets where customers never have to worry about supplies inventory or shortages, inconsistent quality or unscheduled maintenance. This solution consists of placement of 7 high end printers with printing speed of 50+ Pages /Min in place of 37 printers that the Bank was previously using.

Technology Infrastructure virtualized at Dalda Foods

New Horizon virtualizes the technology infrastructure of Dalda Foods by providing VMware vSphere 4 Licenses, HP Proliant DL 385 G6, HP Storage Works 2000 and VMware vCenter Server 4 Foundation for vSphere that will support up to 3 hosts. New Horizon will also install and deploy the solution, provide Datacenter Administration Training, resident engineer for 60 days to administer the datacenter and accessories for the datacenter as a part of Value Added Services.

Data Steel virtualizes and replicates data

New Horizon provided a complete virtualization solution to Data Steel Pipe Industries. The solution includes the virtualization of servers and desktops with VMware technology. To attain the complete version of virtualization solution, Data Steel procures HP Servers, HP Storage, HP Compaq Thin Clients, HP Compaq Desktops bundled with Microsoft Windows 7 as a part of hardware. Data Steel also procured licensed software for the hardware procured. The licensed software purchased is for VMware V Sphere 4, VMware View Enterprise Desktop, Microsoft Server 2008 Standard edition and Microsoft Windows 7. To replicate the business critical data, New Horizon provided a solution based on Veeam Backup and Replication technology to Data Steel.

Network Infrastructure deployed at Air University

New Horizon provides a comprehensive turnkey Network Infrastructure solution to Air University. The solution deployed at the University comprises of both active and passive components for 150 nodes.

Virtualization and Contact Center Solution provided to Aman Foundation

New Horizon virtualizes the IT environment and deploys Contact Center solution at Aman Foundation.

New Horizon worked with AMAN Foundation to deploy virtualized servers and other technologies like Nortel IP Telephony and Microsoft Infrastructure. Instead of the traditional design where one application runs on one physical server, a single physical server can now host multiple virtualized servers and support multiple applications.

New Horizon also provided an ideal solution to implement unified communications. The deployment included Nortel Contact Center and Microsoft Infrastructure elements along with VMware Server Virtualization, which was weaved together to create an integrated communications and applications platform for AMAN Foundation.

Freight Connection procured Microsoft Licenses

New Horizon provided Microsoft licenses to Freight Connection to enhance the productivity of the organization. The products of the licenses provided include Windows 7 Professional Edition, Office 2010 Standard Edition, Windows Server 2008 Standard Edition, and SQL Server 2008 Standard Edition.

LinkdotNet enhances its IT Infrastructure

As a part of expansion, LinkdotNet enhances its IT Infrastructure by acquiring Technology Infrastructure Products from New Horizon. The products include HP Proliant DL580 and DL380 Generation 7 Servers, HP ML-110 Generation 6 Servers, HP P2000 Generation 3 Storage Works, HP Elitebook 8440P Notebooks, HP Probook 4420S Notebook, and HP Compaq Elite 8100 Desktops. Along with HP Products, New Horizon also provided 5 User N-Computing Device, Microsoft Windows Remote Desktop Services and third party software.

RMI technologically boosted

New Horizon boosts Rehman Medical Institute's IT Infrastructure.

New Horizon provides RMI infrastructure virtualization solution based on Microsoft and Citrix technologies. New Horizon also provided technology infrastructure products to RMI which include HP Servers, Storage, and HP Thin Clients. The infrastructure virtualization solution provided by New Horizon consists of Server Consolidation and VDI.

New Horizon has also signed an agreement with Rehman Medical Institute for the establishment of complete LAN and Voice Infrastructure for the establishment of inbound call-center.

Sindh High Court acquires Technology Infrastructure products

Sindh High Court acquires Technology Infrastructure products from New Horizon. The products include HP ProBook 4520S Laptops, HP 3130-MT Desktops bundled with APC BR500 Uninterrupted Power Supplies (UPS), HP P-1102 Laser Jet Printers, and additional APC BR500 UPSs.

Technology Infrastructure Solution deployed at Danish School Systems

New Horizon sets up new Technology Infrastructure solution at Danish School System at their branches at Hasilpur, Chishtian and Rahimyar Khan. New Horizon provided the school with a comprehensive and robust solution from scratch which included the physical infrastructure of the lab, deployment of network infrastructure for uninterrupted connectivity in the school as well as the hostels, and technology infrastructure which encompasses a HP Multi-Seat and HP Servers. New Horizon also deployed Microsoft products which comprises of Windows Server 2008, Windows Multi-Point 2010, Office 2010 Professional, Windows 7 Starter and Forefront Client Security.

Dubai Islamic Bank moves towards Branchless Banking

Dubai Islamic Bank (DIB) moves towards Branchless Banking.

New Horizon provided a solution which consisted of

Citrix and Microsoft Desktop, Application and Server Virtualization solution. Users will be accessing the Citrix Virtual Desktop in real time mode with RSA 2-Factor authentication in action. All the applications used in the branches will be delivered through Citrix and Microsoft based Application virtualization and will be available to the users on demand. Users will be authenticated via Microsoft Active Directory and RSA SecurID, once authenticated they will have access to their personal virtual desktop's along with the published applications they are given access by the administrator.

Reckitt & Benckiser automates sales

Reckitt & Benckiser Pakistan Limited has automated its sales force by acquiring HP PDAs for their order booking. The multi-national FMCG Company has signed an agreement with New Horizon for various HP iPAQ 212 PDAs.

Roshan Telecom, Afghanistan procures IT Infrastructure Products

Last year, New Horizon started it's strive to provide the best in-class IT Products & Services in Afghanistan too. New Horizon provided Afghanistan's leading telecommunication company-Roshan Telecom with a number of HP 6930p Laptops, DX7500MT Desktops, 5550 Color Printers, LaserJet CM 2320fxi Copier and LaserJet 3005X Black & White Printers.

Tullow gets Virtualized

Tullow Pakistan (Developments) Ltd. gets their IT Infrastructure virtualized. Tullow was helped by New Horizon to consolidate their IT Infrastructure using VMware technology. New Horizon is deploying the VMware Web Sphere Solution at Tullow.

NUST enhances their Technology Infrastructure

NUST enhances their Technology Infrastructure by procuring HP Products from New Horizon. These HP products include Pro 2000 Desktops, Servers, Printers and Plotters. NUST has also procured HP Z800 Workstations powered by NVIDIA Tesla technology which delivers massive performance for scientists and researchers needing the power of a supercomputer, but at a fraction of its cost and power consumption.
